

DETROIT: BECOME HUMAN™ REACHES 8 MILLION UNITS SOLD WORLDWIDE

Quantic Dream announces still-growing sales for its renowned interactive storytelling video games, with *Detroit: Become Human™* crossing 2.5 million units sold on PC.

Quantic Dream, the award-winning studio at the forefront of interactive storytelling, is proud to announce today the enduring success of its video game *Detroit: Become Human™*, which has surpassed the milestone of more than 2.5 million units sold on PC, accumulating over 8 million copies sold worldwide across all platforms (excluding copies obtained with subscription services.)*

This new milestone is part of the ongoing success of its three flagship video games available on PC since 2019: *Heavy Rain™*, *Beyond: Two Souls™* and *Detroit: Become Human™*.

“2022 was remarkable for QUANTIC DREAM. We achieved a significant increase in sales of our three historical PC games compared to 2021, an unusual phenomenon which builds on the already excellent sales results recorded in the previous three years,” said Guillaume de Fondaumière, Co-CEO of Quantic Dream. *“The continued success of Detroit: Become Human™, but also of Heavy Rain™ and Beyond: Two Souls™, is due to the quality of these titles, their enduring appeal to PC gamers, as well as the thorough and long-term work of our Publishing team. We are delighted to introduce our works to an ever wider and younger audience, and on all continents. At the end of 2022, we also saw a record level of ‘wishlisting’ on these three titles, which gives us hope for an equally exceptional 2023.”*
